

## SPRAYER HIGH PRESSURE 10 L EPDM

Part No  
**3615SE**

## TECHNICAL DATA

### SPRAYER HIGH PRESSURE 10 L EPDM

For high alkaline liquids and bases. Stainless steel tank, special hose that maintains its flexibility even at low temperatures, 50 cm brass spray tube with nozzle with flat spray pattern and fine filter. The pressure is generated with a hand pump, the container can also be filled with compressed air from a compressor. Not suitable for fluids corrosive to brass or stainless steel.

#### 3615SE

#### TECHNICAL DATA

Part No	3615SE
Maximum pressure	0,6 (6) MPa (bar)
Pump	Compressed air / hand pump
Volume	10 l
Weight (Gross)	5,78 kg
H.S. Code	73102990
