## USED OIL OR ANTI FREEZE DIRECT FROM THE ENGINE TO THE STORAGE TANK

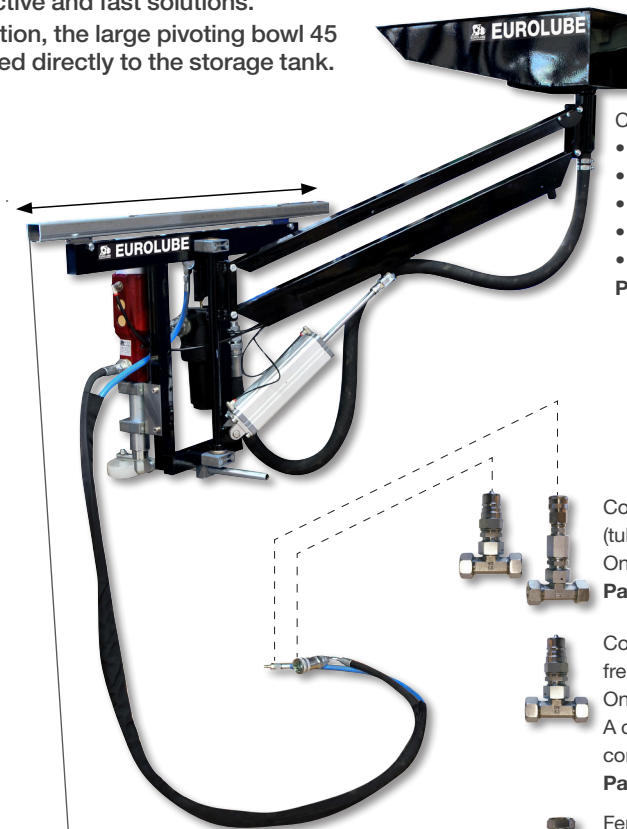

- Our new mobile waste oil or antifreeze collector is designed for today's trucks and buses.
- From one connection point (317-62), you cover up to 6m working range.
- Rising volumes of oil changes require effective and fast solutions.
- The arm is raised easily to the correct position, the large pivoting bowl 45 l collect efficiently the oil or antifreeze, pumped directly to the storage tank.

### FEATURES:

- Large 45 l bowl with built-in strainer
- Height adjustable 1000 mm
- Built-in pump control
- Oil is pumped directly to the tank
- One unit cover up to 6m

### HOW TO ORDER:

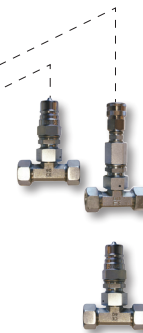

- **Swing arm for waste oil**  
PART NO: 317-60  
Minimum one unit per pit, 2 units are recommended.
- **Swing arm for antifreeze (green bowl)**  
PART NO: 317-65
- **Rail kit**  
PART NO: 317-61  
For a 24m pit we recommend 4 rail kits.  
One rail is 4m.
- **Rail kit for prefabricated Balzer pits**  
PART NO: 317-66
- **Connection kit**  
PART NO: 317-62  
One connection kit per 4m recommended.
- **Connection kit for antifreeze**  
PART NO: 317-63  
One connection kit per 4m recommended.  
To be used together with 317-62, only fluid connector. A different connector prevents connecting the wrong line.
- **Connector for 317-63**  
PART NO: 3315098  
Female connector, suitable for waste antifreeze connection kit 317-62. Replaces the connector on 317-65.

Complete swing arm, includes:

- H.V. 5:1 Pump
- Large strainer
- 2m air & discharge hose kit
- Pneumatic Pump control
- Pneumatic up / down control

**Part No: 317-60**

Connection kit for air & waste oil (tubes not included).

One kit per 4m recommended

**Part No: 317-62**

Connection kit for waste anti-freeze (tubes not included).

One kit per 4m recommended

A different connector prevents connecting the wrong line.

**Part No: 317-63**

Female connector, suitable for waste antifreeze connection kit 317-62. Replaces the connector on 317-60.

**Part No: 3315098**

Rail kit consists of: 4m rail, 2 brackets and 1 joining piece

**Part No: 317-61**

- Eurolube is a Swedish brand specializing in the manufacture, distribution, and support of environmentally-friendly products and tailor-made complete and professional solutions for the handling of lubricants and other fluids.

- We are recognized for our instant support and service from simple advice to fully integrated systems tailored to the needs of each customer.

- We provide a professional line of fluid handling solutions within all business sectors.
